

PAID ASSETS

1. In order to add a paid Asset to your profile you will need to attach it to a project. To do this you will need to click “Attach Assets” on the right-hand side within the project editor. If you want the Asset to stay visible as an overlay on a specific image within your project, you can select “Attach Assets” from the upper left-hand corner.

2. Upload your Asset and add the details:
 - a. **File Name**
 - b. **Access** (when you select this and choose “Requires Payment” you’ll only be able to do so if you have successfully connected to [Stripe](#). If you haven’t already connected you can follow the prompts and sign up from there.)
 - c. **Category** (you must select one of the 5 options in the dropdown menu)

Assets

Want to make supportive assets available for your audience to download? Add up to 5 below.

File Name
mt_tam .jpeg

Access
Requires Payment

Category

- Fonts
- Illustrations
- Photos
- Templates
- Vectors

Behance platform fee
30%

You get
Net of fees

By clicking "Add File," you agree to the [Adobe Terms of Use](#) and [Behance Additional Terms](#). You are solely responsible for collecting and remitting any applicable taxes.

Add File Cancel

- d. **License Type** (click [here](#) for more information)

PAID ASSETS

- e. **Price** (fees will automatically calculate)
