## IN THIS GUIDE

What are Subscriptions

Setting Up Your Subscription

Adding Premium Content

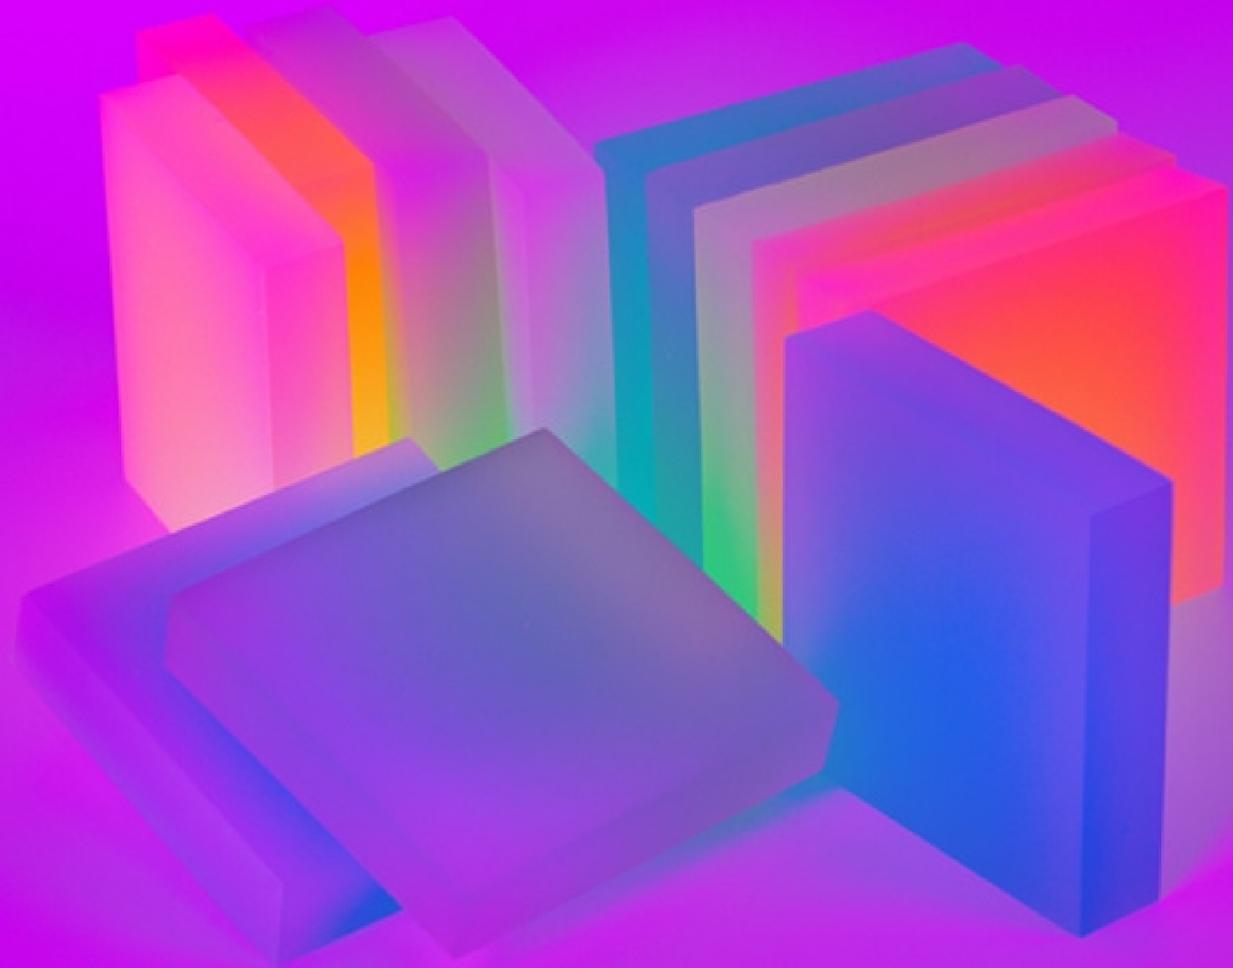

Best Practices

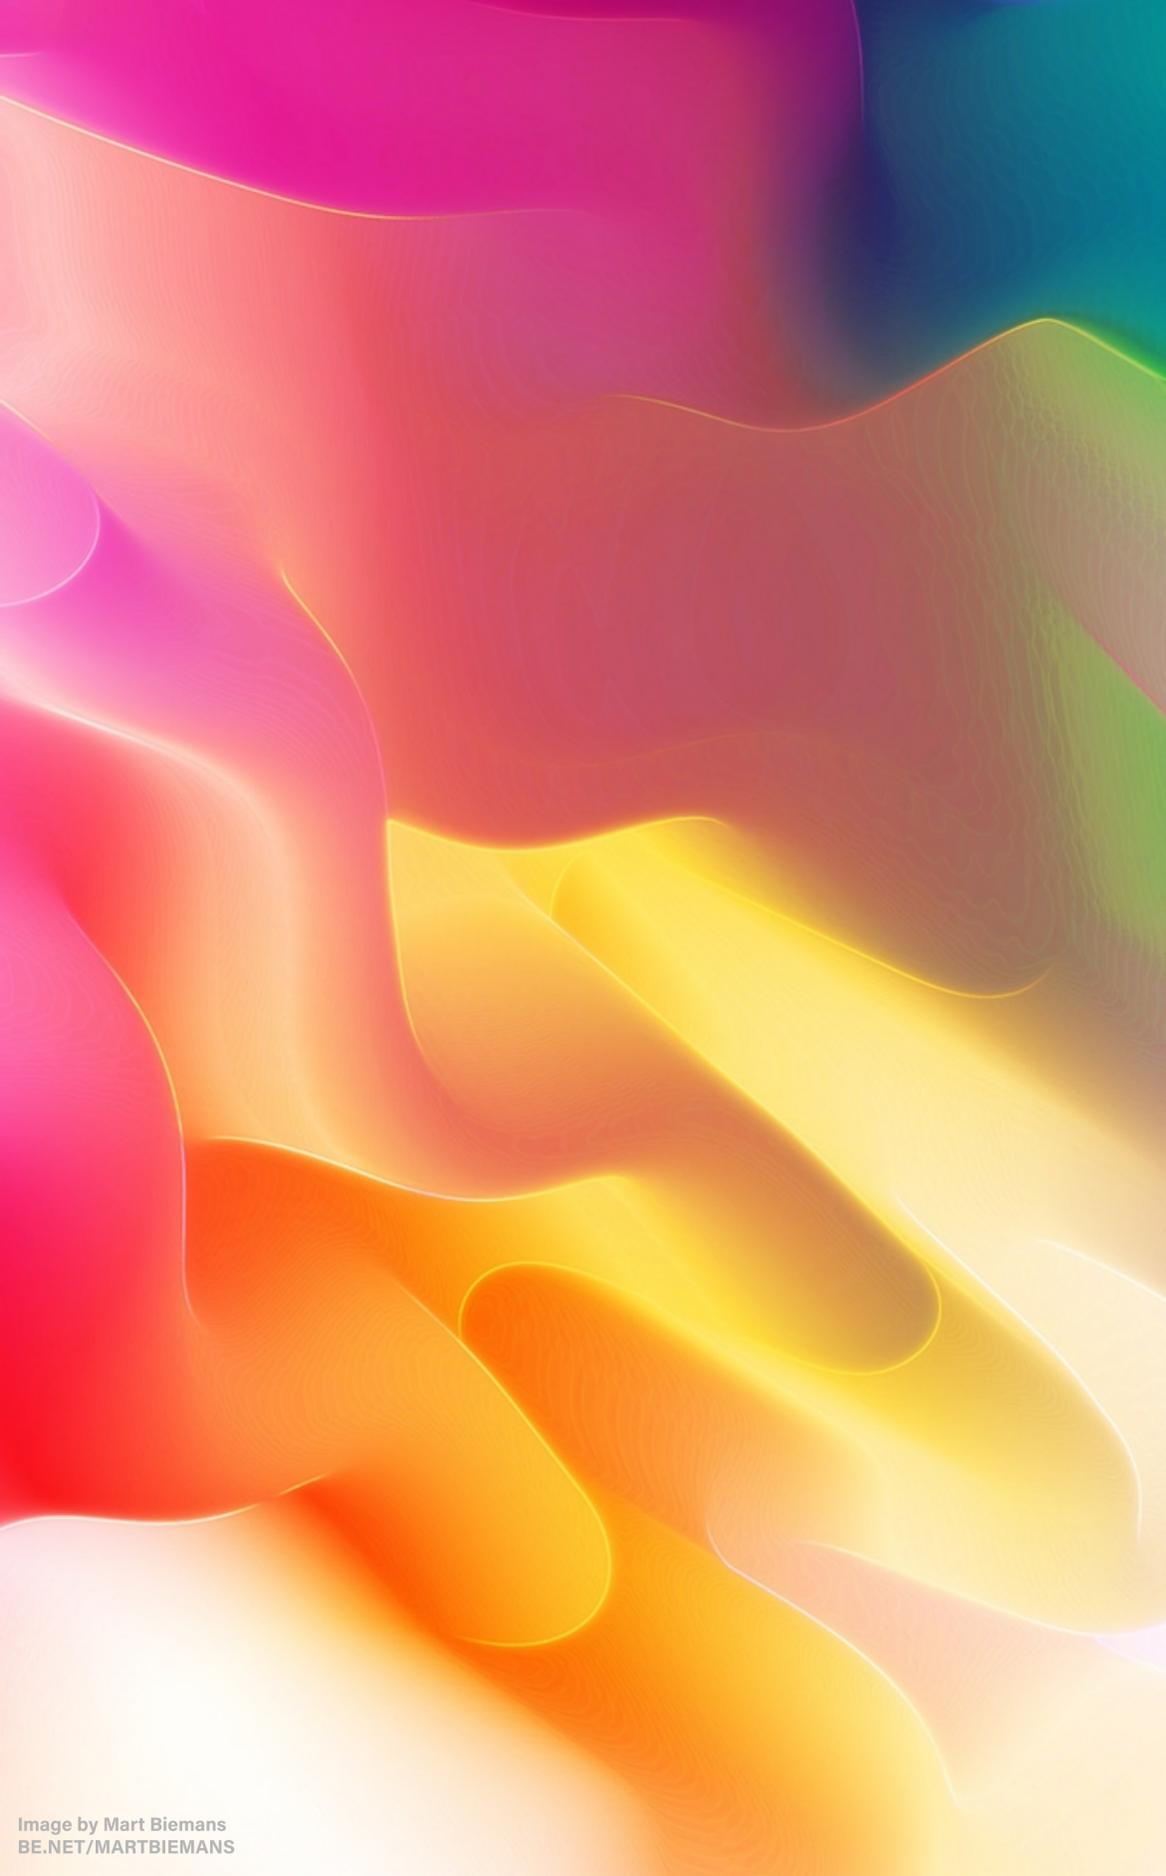

# What are subscriptions on Behance?

Subscriptions are a new way for anyone to support your creative work through **a monthly membership for premium content**.

It's seamlessly integrated with your existing Behance projects and livestreams, so you can mark any current content to be for subscribers only, or add new content as you go.

Currently, we have invited a limited number of creators into our beta program.

# No Commission Fees For Creative Cloud Members

If you have an active paid **Creative Cloud membership**, Behance collects no platform fees, which means **100% of your subscription revenue goes directly to you** (aside from payment processing fees\*).

Payments are processed through Stripe for secure online access to your funds.

\*Current Stripe fees are 2.9% + \$0.30 per transaction (but subject to change by Stripe.)  
Read the full FAQ on payment fees at [help.behance.net](https://help.behance.net).

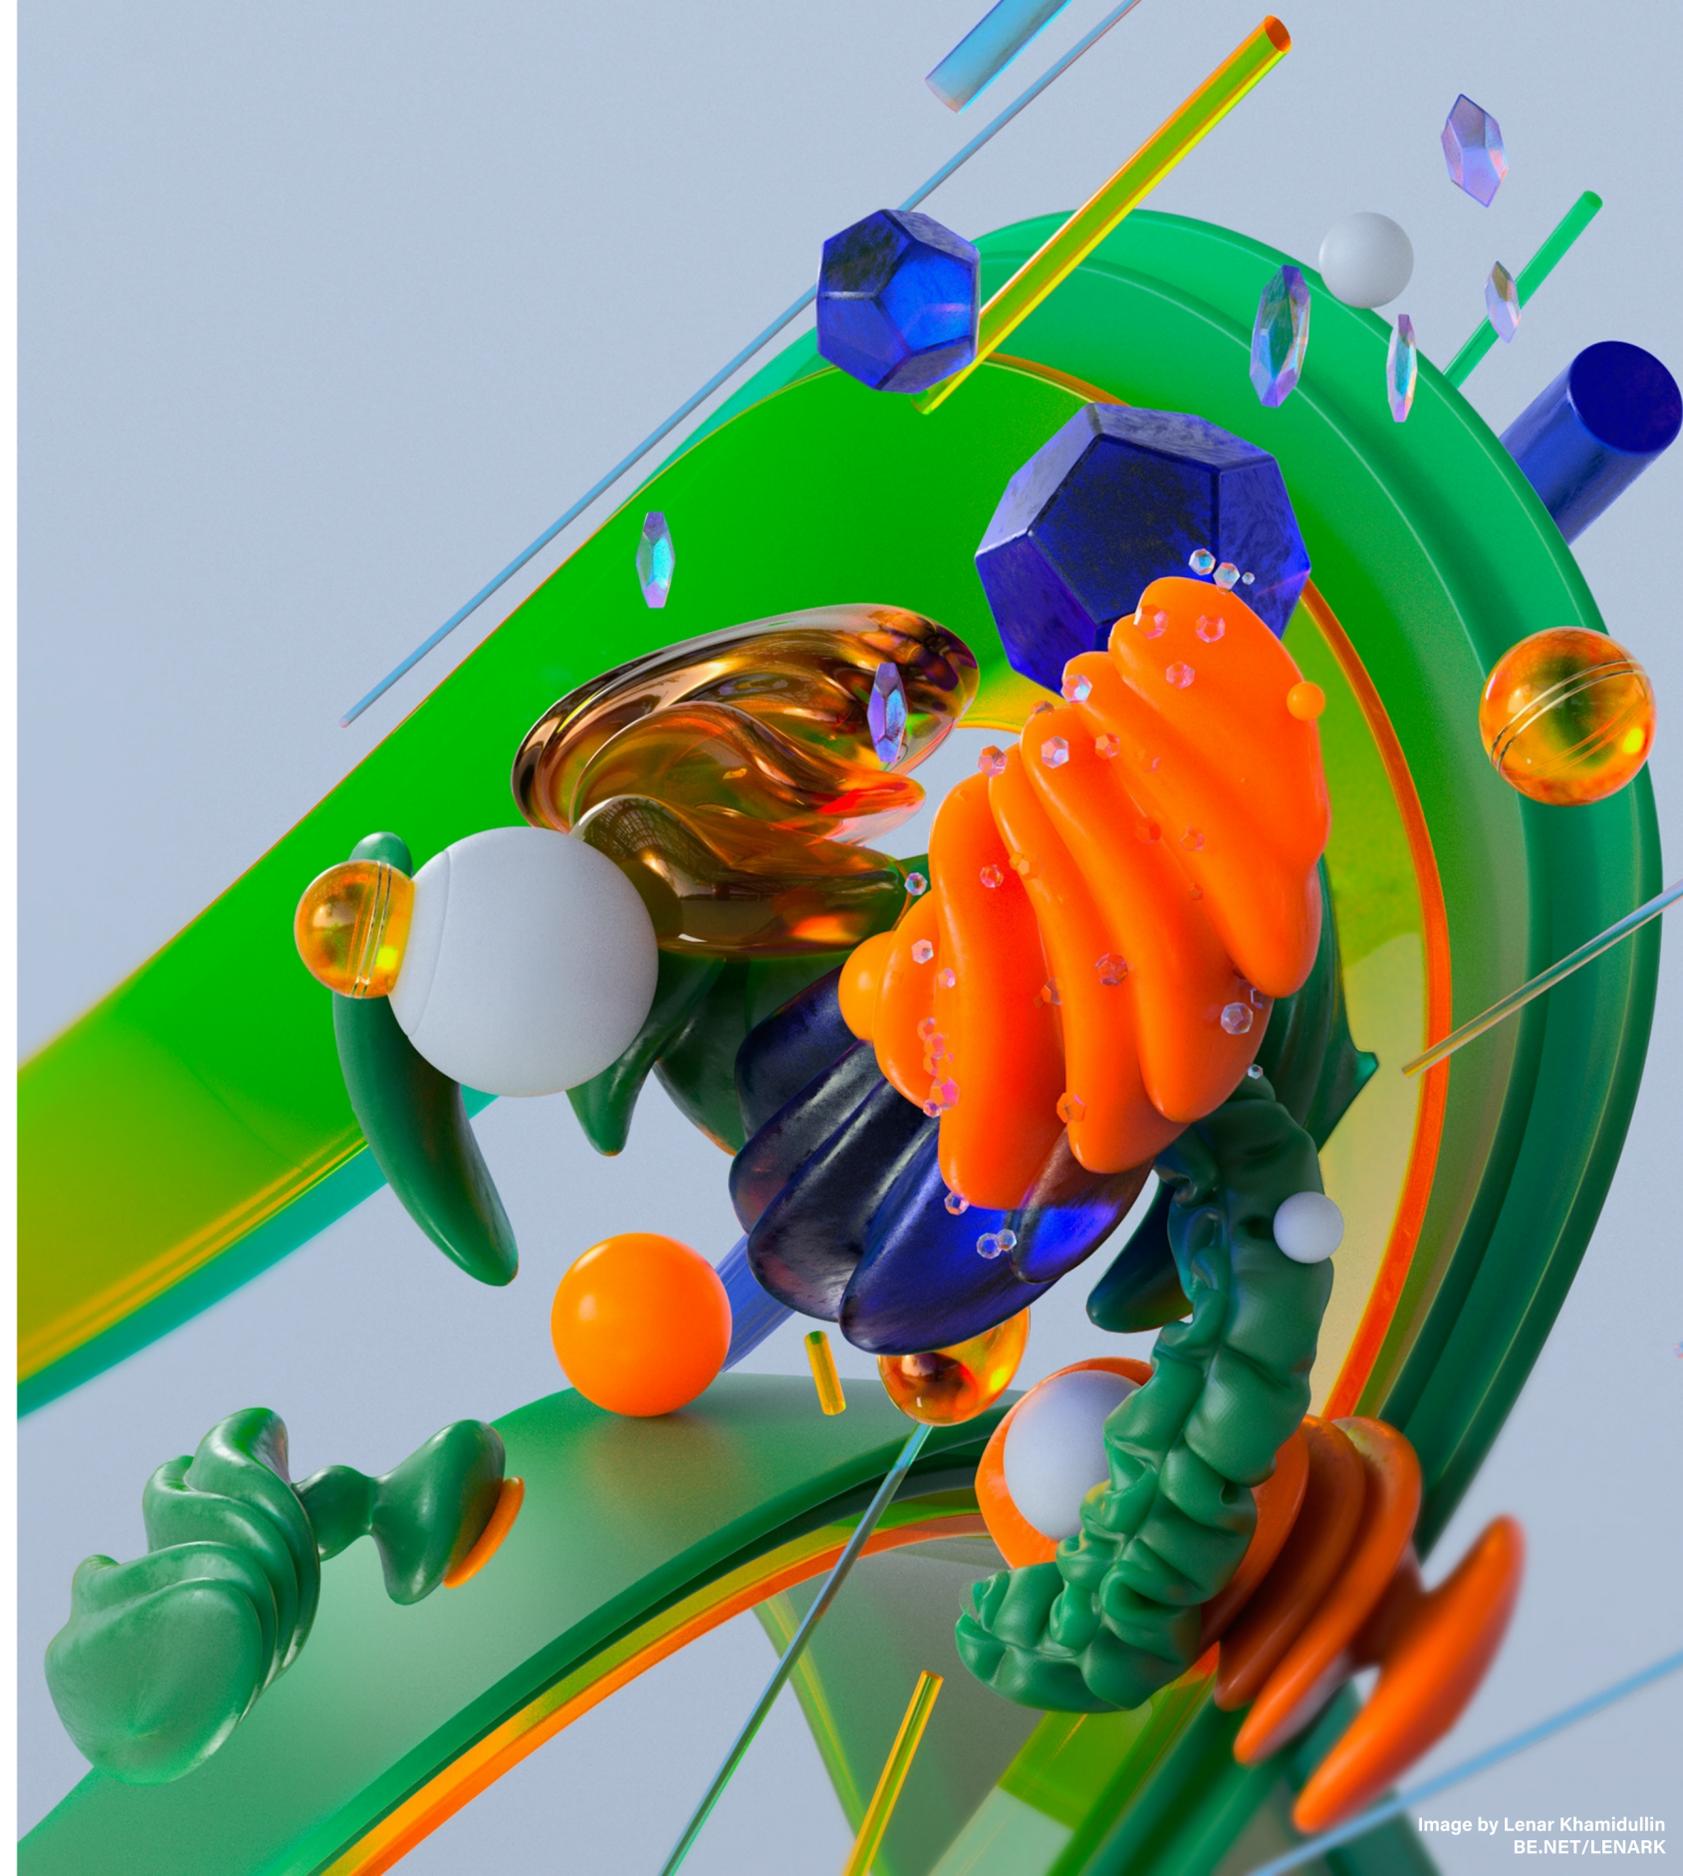

# A few important details

- 1 Your subscription will appear in \$USD, but 44 payment currencies are accepted.

See the full list of all supported currencies at [stripe.com/global](https://stripe.com/global).

- 2 Subscribers will be charged monthly automatically after they subscribe.

- 3 You won't be able to change your subscription price once you've set it, so choose carefully at setup.

# Setting Up Your Subscription

Once we enable your account, you'll see a new tab on your Behance profile called Subscriptions. From here, you'll be prompted to connect a Stripe account. If you don't already have one you can make one.

The screenshot shows the Behance profile of Bureau Oberhaeuser. The profile includes a header with navigation links (For You, Discover, Livestreams, Jobs), a search bar, and a 'Create a Project' button. The profile information shows Bureau Oberhaeuser as the founder of Oberhaeuser GmbH, located in Hamburg, Germany. The 'Subscriptions' section is highlighted with a blue border and contains a blue callout box with the text: '1 CREATE OR CONNECT YOUR STRIPE ACCOUNT This link will take you to the Stripe website, where you can create your Stripe account.' Below this, there is a blue banner stating 'As a Creative Cloud member, you qualify for a 0% Behance platform fee\*'. The main heading is 'Welcome to Subscriptions on Behance' with a sub-heading: 'You can now create a paid subscription to offer premium projects, livestreams, and source files to your paid viewers. Set up your subscription below and start collecting payments.' The primary action is a button labeled '1 Connect your Stripe account' with the text 'We've partnered with Stripe to handle all transactions and recurring payments from members'. A secondary button 'Connect with stripe' is also present, along with a link 'Learn more about Stripe'. A footnote at the bottom states: '\* Standard 20% platform fee is waived when you have an active paid Creative Cloud plan. See eligible plans'.

**NOTE**  
Already have an account? Sign in with your existing Stripe credentials, and then follow the prompts to activate a new account that'll be connected to your Behance subscription.

### SET YOUR PRICE

# Setting Your Price

After connecting your Stripe account, you'll be brought back to Behance to set your monthly rate. You can choose anything from \$1-\$100 a month.

Again, you will not be able to change your subscription price once you've set it, so choose carefully at setup.

# Your Subscription is Live

Once you've set up your subscription, it's time to populate your page with premium content for your subscribers.

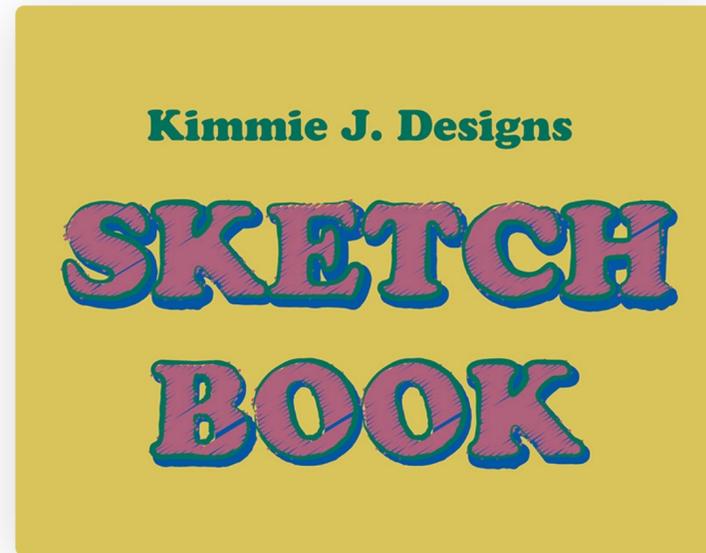

The screenshot shows a Behance profile for 'BUREAU OBERHAUSER'. The navigation bar includes 'Bēhance', 'For You', 'Discover', 'Livestreams', 'Jobs', a search bar, and a 'Create a Project' button. # Tips, Tricks, and Some Best Practices

The best way to gather more subscribers is by having a **regular cadence of new content to keep adding value**. Here are some additional tips we've gathered to help you on your way:

# Pin a public project describing your subscription, with a premium source file attached

The description project can outline what's offered in your subscription, how often users can expect new premium content, etc.

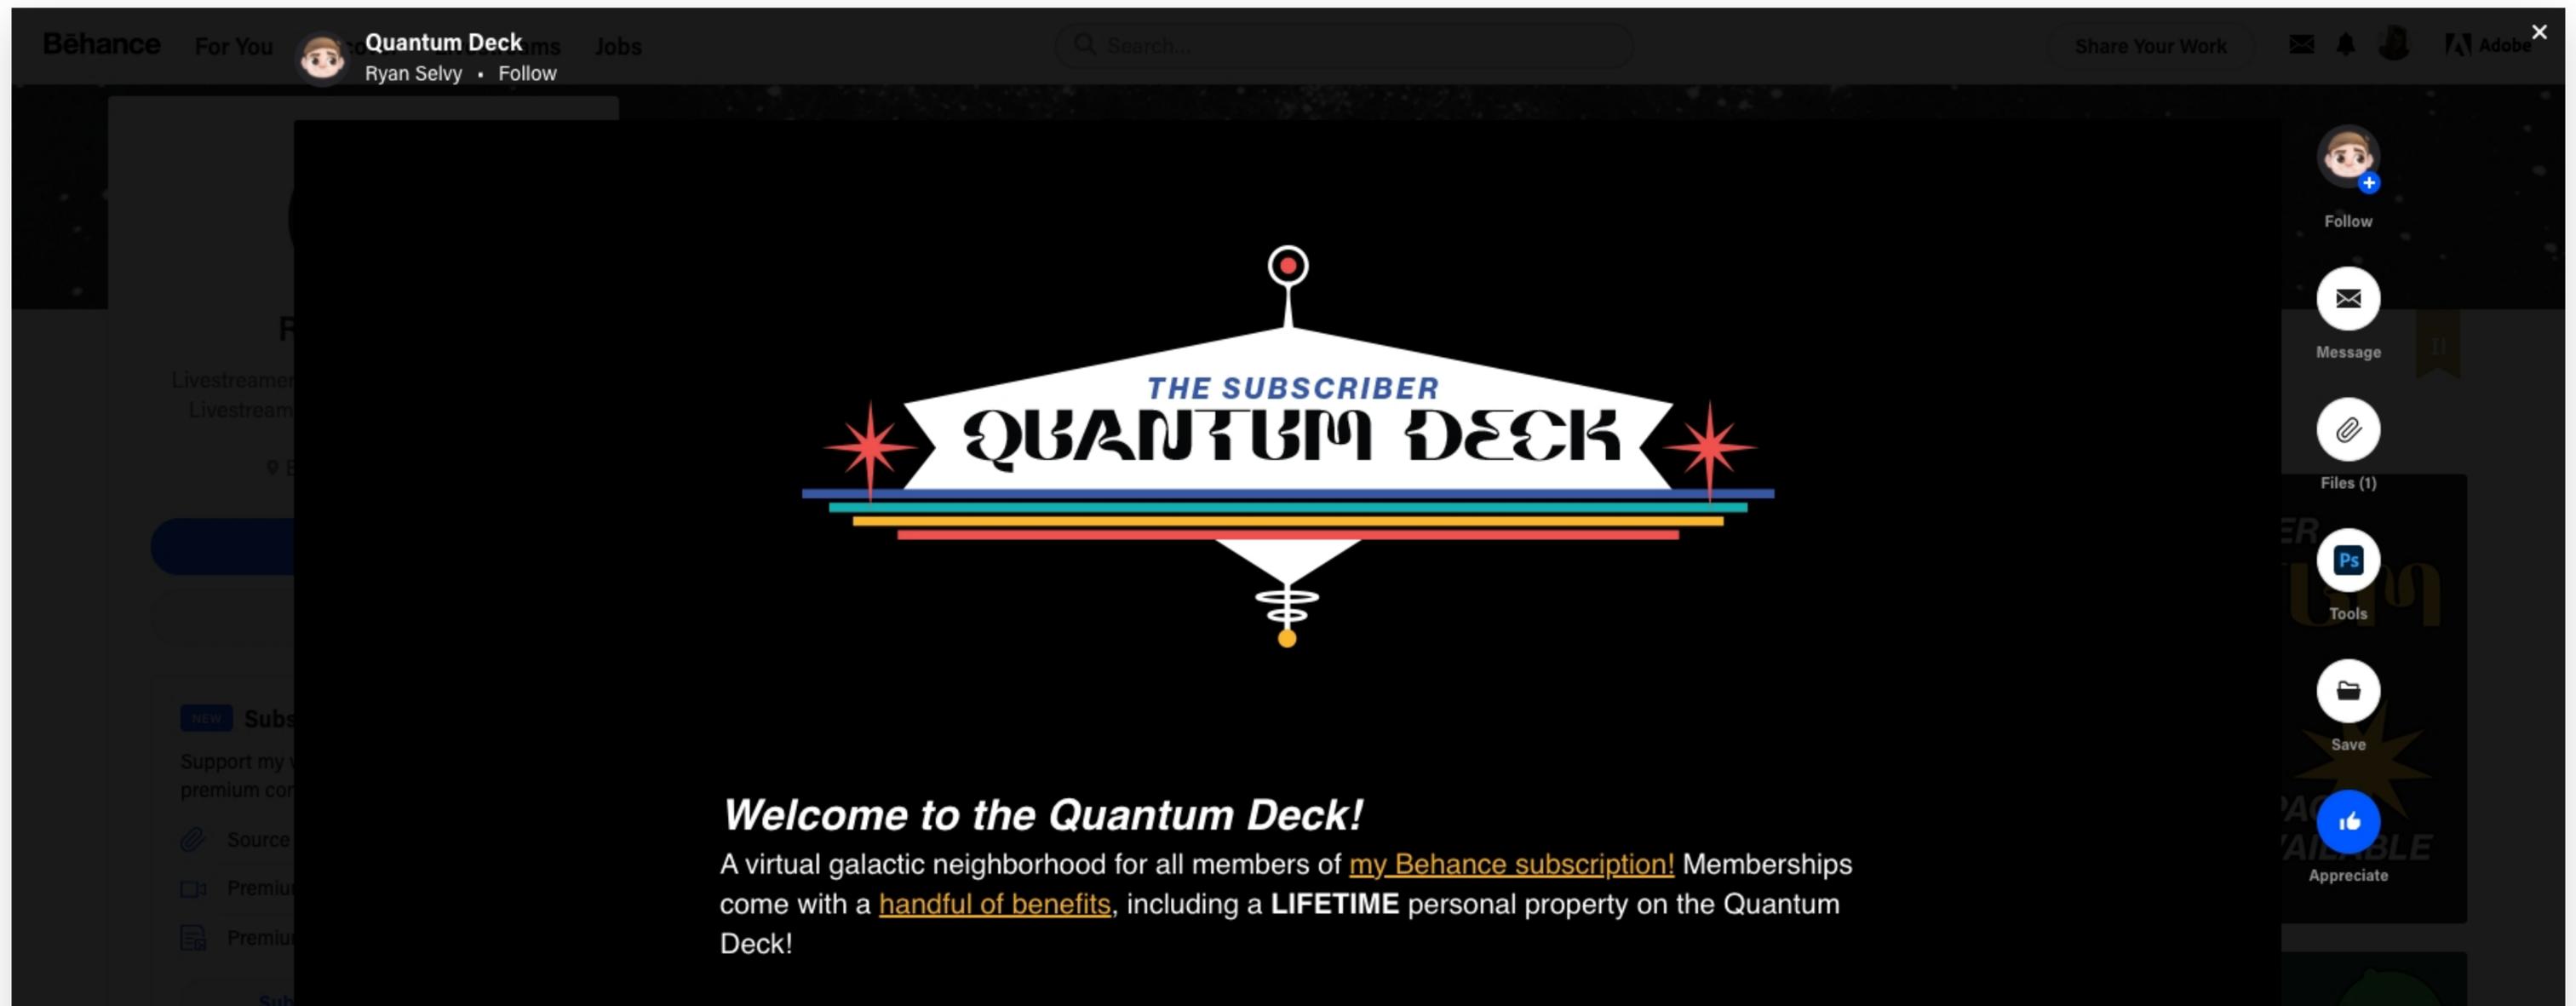

By adding a premium source file to a public project, this ensures the project will show up in your subscriber area and be viewable to potential subscribers.

Below the logo, the name 'Bureau Oberhaeuser' is displayed, followed by the title 'Founder', the company name 'Oberhaeuser GmbH', the website 'www.oberhaeuser.info', and the location 'Hamburg, Germany'. There are three buttons: 'Edit Your Profile', 'Edit Availability', and 'Edit Adobe Portfolio'. A statistics table shows: Project Views (247,973), Appreciations (20,265), Followers (9,438), Following (179), and Subscribers (12). Below the statistics are social media links for Instagram and Twitter. The 'ABOUT' section states: 'Bureau Oberhaeuser is a design bureau focused on Information- and Interface Design. The Bureau was founded in 2011 in Hamburg by...'. On the right side, the 'Subscriber Area' is highlighted, showing a subscription price of '\$8 Per Month' and '12 Active Subscribers'. Below this is a 'Subscription Overview' section with a pin icon and the text: 'Subscription Overview. Describe your subscription in a project and pin it here. Learn more. Choose Project'. To the right of this section is a 'Premium Content' area with a video thumbnail titled 'Tech Startup Evolution Calendar 2018' and a project titled 'Sunday Landscape Study' with a duration of 58:48 and a timestamp of 11 hours ago. Below the project are two preview links: 'Preview - XD File' and 'Preview - Components'.

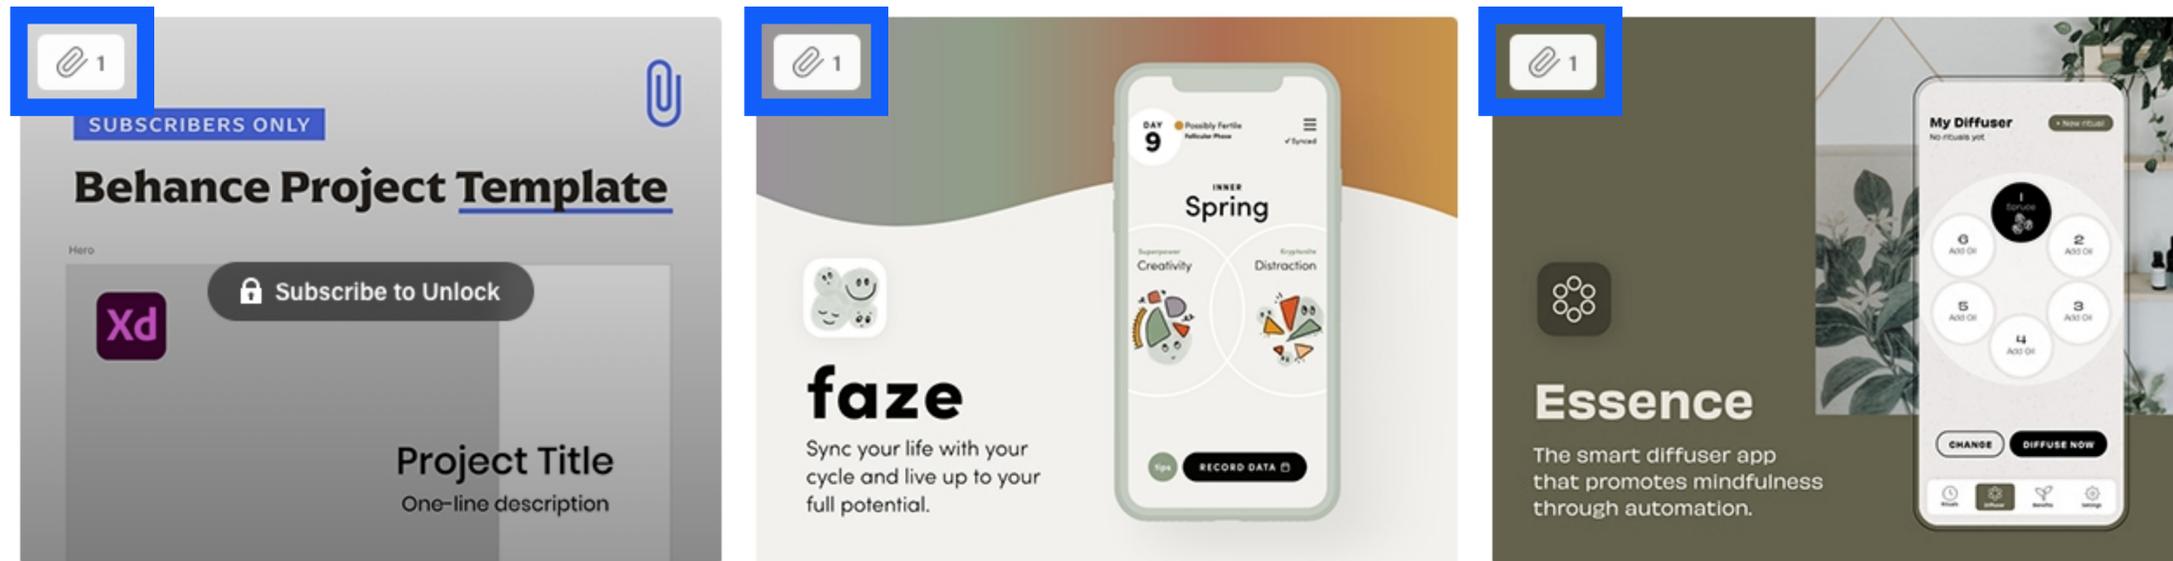

# Create a premium project welcoming subscribers

This will be the first place you'll be able to talk directly to your subscribers. This will also create something behind the paywall that customers can immediately unlock while you work on more subscription content.

Some of our creator's have added "Welcome Kits" featuring their favorite brush packs, source files, etc.

# Fill up your subscriber area if you're just getting started

If you're just starting your subscription, consider adding one source file per project or livestream.

If you already have public projects on Behance, consider adding working files, timelapses, or other related content to that project for subscribers. Remember, you can attach a subscriber-only asset and keep the project public.
